Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: applicant's argument that applied prior art, Noguchi doesn't teach nor describe measuring the change reflectivity or relation between the first and second reflectivity with respect to wavelength between the flat portion and the hole portion, and calculating the depth of the hole portion based on the shift amount of the reflectivity with respect to the wavelength or with respect to the first and second wavelength, film thickness, and hole pattern data is found persuasive. Noguchi describes measuring the depth of the pit by determining peaks or intensity from the reflectivity of the wavelength. The rejection under Noguchi and Noguchi/Clevenger is therefore withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
